tecTrain ist ein zertifiziertes Schulungsinstitut nach Ö-Cert, dem Qualitätsrahmen für die Erwachsenenbildung in Österreich

The certification exam is a multiple-choice test consisting of 40 questions that must be answered within 90 minutes. No materials are allowed (closed books), 26 out of 40 points (65%) must be achieved. The exam can be done either online using the EXIN remote proctoring system (candidates will be provided a voucher code and a short how-to-use-manual) or paper-based directly onsite following the training. The trainer will then invigilate the exam directly after the training has finished (at the end of the 2nd training day).

Voraussetzungen

Skills compared to the content of the EXIN Agile Scrum Foundation course.

Zielgruppe

The Agile way of thinking is best known in the field of software development, but the principles are increasingly being applied in other types of projects. Scrum is the most used Agile methodology and is suitable for all professionals looking to keep their knowledge up to date with the latest developments in the fields of IT and Project Management, particularly those leading or participating in projects. In particular, the certification is suitable for professionals working in an Agile context and who have the ambition to facilitate a Scrum Team by assuming the role of a Scrum Master.

Abschluß

Nach Seminarabschluss erhalten Sie ein tecTrain-Teilnahmezertifikat.
